CALL FOR PAPERS

The ICDPUM 2014 : 16th International Conference on Development Planning and Urban Management is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Development Planning and Urban Management. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Examples and visions of liveable cities for everyone
Keeping balance: managing complex urban infrastructures
Housing and real estate perspectives, high tech & low cost housing
Perspectives for future transport and mobility
Urban and environmental technologies to improve quality of life
Ambient Assisted Living (AAL) in the urban context
Healthy cities, health in cities
Safety and security vs. lack

of privacy and total surveillance
Data, information and knowledge infrastructures for planning, management and decision support
Understanding cities: tools and technologies to support decision makers, citizens and experts in their understanding of cities
Sustainable Urban Development
Creating the Future: Urban Design,
Temporal Structures, Visions, Fantasies
Energy and Mobility as key factors for sustainability and
