CALL FOR PAPERS

The ICDP 2015 : 17th International Conference on Digital Preservation is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Digital Preservation. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Infrastructure	collection content profiling
Intelligent and secure storage	Strategic environment
scalability	legislative, strategy and policy enablers (eg preservation intent, pre-conditioning)
complex formats	standards
large web data sets	local, regional and national approaches
software and hardware dependencies	Preservation strategies and workflows
system architectures and requirements	migrations
distributed and cloud-based implementations	emulation
Communities	metadata
institutional contexts for preservation	risk measurement and management
personal archiving	
collaboration
