CALL FOR PAPERS

The ICDE 2016 : 18th International Conference on Data Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Data Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Data Integration, Interoperability, and Metadata	Workflow, Web Services
Ubiquitous Data Management and Mobile Databases	Stream processing and sensor databases
Query processing, query optimization, and data structures	Data Grids, Data Warehousing, OLAP
Data Privacy and Security	Temporal, Spatial, and Multimedia databases
Data Mining	Database Applications and Experiences
Semi-structured data and XML databases	Database System Internals and Performance
Distributed, parallel, Peer to Peer databases	
Web Data Management and Deep Web	
Scientific and Biological Databases and Bioinformatics
