CALL FOR PAPERS

The ICGI 2017 : 19th International Conference on Genome Informatics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Genome Informatics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- Genome Informatics
- NGS data analysis
- Cloud and workflow platforms for bioinformatics
- Cancer genomics
- Metagenomics
- Machine learning
- Molecular biology
- Protein bioinformatics
- Open problems in computational biology
