CALL FOR PAPERS

The ICOH 2017 : 19th International Conference on One Health is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of One Health. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

One Health Research
Terrestrial, aquatic and aerial (land, sea, air) pathogens
Pathogens and predisposing factors in the food chain
Vector-borne pathogens
Immuno-toxicology and infectious diseases
Antibiotic, antiviral and antiparasitic resistance: medical vs veterinary drivers
Biodiversity and emerging pathogens
Novel technologies: from molecular to modelling
Ecosystems and wildlife in pathogen emergence

Comparing pathogenesis in natural and spill-over hosts
Demographics and behaviour in humans and animals
Climate, environment and emerging pathogens
Molecular basis of emergence
Comparing drivers in different continents: from poverty reduction to global connectivity
Early responses by clinicians and veterinarians
Intervention strategies and benefits of modelling
One Health implementation: case studies
Other/miscellaneous
