CALL FOR PAPERS

The ICIHG 2017 : 19th International Conference on Isotope Hydrology and Geochemistry is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Isotope Hydrology and Geochemistry. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Isotope Hydrology and Geochemistry
Stable Isotope Hydrology and Ecology Research
Isotopes in hydrosphere–atmosphere interactions and palaeoclimate reconstruction
Groundwater dating and palaeohydrology
Water balance and hydrological processes
How laser spectroscopy is transforming isotope research
New approaches and tools in isotope science
Water scarcity, water quality, food security, climate change, and energy resources
