CALL FOR PAPERS

The ICASEBS 2018 : 20th International Conference on Advanced Structural Engineering and Building Systems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advanced Structural Engineering and Building Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Building systems
Materials and construction systems
Building technology
Energy and sustainability
Construction management
Construction safety and health

Refurbishment and maintenance

Civil construction
Materials innovations
Experience in environmental product declarations
Architecture and environmental sustainability
Construction, material and technology

Design education and design research
Environmental and landscape architecture
Generative, parametric and evolutionary architecture
Interactive environments and collaboration
Interface between research and industry
Simulation, prediction and evaluation
Theory, philosophy and methodology in architectural science
Thermal comfort, lighting and acoustics
Architecture and social
